Erwin

Fullstack Web Developer

Work History

2024/10 - Present

Full Stack Developer

NewDays, Seattle, Washington, United States, Remote

Building artificial intelligence tools and services to help people with MCI and dementia

2023/11 - 2024/10

Frontend Developer

Canteen Australia, Australia, Remote

I built a responsive, accessible charity site with seamless API integration for smooth, user-friendly interactions.

2023/04 - 2023/03

Full Stack Blockchain Developer

AFI OPS Technologies, Timişoara, Timiş, Romania, Remote

I have executed successful projects, including customized NFT Contract and NFT Mint Page. I have experience with a variety of technologies such as React, Express, NestJS, MongoDB, Solidity, Web3, and AWS, allowing me to deliver efficient and effective outcomes.

2021/12 - 2023/03

Full Stack Blockchain Developer

DX Software, Timişoara, Timiş, Romania, Remote

I have executed successful projects, including cryptocurrencies, a Decentralized Exchange, and an eCommerce store that accepted crypto payments. I have experience with various technologies such as React, Express, NestJS, MongoDB, Solidity, Web3, and AWS, allowing me to deliver efficient and effective outcomes.

2019/12 - 2022/01

Founder – Front End Developer

Script Foster, Medan, North Sumatera, Indonesia

My team has a strong track record of successfully delivering customized company profile websites. Furthermore, we provide solutions for custom mobile applications and websites, all driven by our clients' unique requirements. We collaborate closely with our clients from concept to deployment to ensure that not only is their vision realized but also that it exceeds their expectations.

2021/06 - 2021/12

Full Stack Developer

Upwork Inc., Remote

I have extensive experience creating customized websites and mobile applications tailored to the specific requirements of my clients. From concept to deployment, I work closely with my clients to ensure that their vision is realized and their expectations are exceeded.

2021/05 - 2021/09

Senior Back End Engineer

Beebbo Comics, Medan, North Sumatera, Indonesia

I've built a subscription-based comic website. I handle backend development, including creating REST APIs for seamless communication with the frontend. Additionally, I integrate the payment system, utilizing Midtrans as the payment gateway.

2020/04 - 2021/04

Mobile Application Developer

Executive X, Medan, North Sumatera, Indonesia

Built a React Native mobile app for Instagram engagement groups, facilitating user interactions through likes and comments. Users can input their Instagram username and join specific groups to engage with others by liking and commenting on their posts.

2019/03 - 2020/03

Back End Engineer

Executive X, Medan, North Sumatera, Indonesia

I have created APIs for the Instagram engagement group website and mobile app. Developed an Instagram bot using a third-party library to monitor user engagement within their groups. Utilized a Telegram bot to provide users with reports on their unengaged Instagram posts.

Education

2014/09 - 2019/10

Bachelor of Technology – BTech, Information Technology , 3.5 of 4.0

Universitas Mikroskil, Medan, North Sumatera, Indonesia

Final Project: Content Based Recommendation System Using K-Nearest Neighbor (KNN) and Binary Particle Swarm Optimization (BPSO) Method
